

what's up youtube hey listen it's late  
but i could not let the night get by  
without coming on live and just talking  
to you guys for a minute listen  
today was a crazy day in the market i'm  
sure you all know that by now  
you look at your boy i'm even down 10  
000 in a day  
that's that's the magnitude of how  
beat down the market was inflation had a  
lot to do with that  
along with buying yields and things like  
that that i need to explain to you all  
so that you kind of understand what's  
going on but  
i hope that you guys understand this is  
a down week in the market so  
don't expect your plays to be performing  
well  
don't have the unrealistic expectation  
that plays we've talked about  
that will eventually do its thing will  
perform well in a week like this  
this is just one of those weeks where  
the majority of the plays  
no matter what sector you're in will  
take a beating okay so just understand  
it have the right context around  
what's going on versus thinking that  
somebody is  
is off with their picks or things like  
that it has nothing to do with that this  
is just what the reality of the market  
is  
find yields to be exact inflation things  
of that nature  
but listen guys i want to prepare us for  
what we are getting ready to embark on  
and for  
us that is coinbase okay coinbase  
is going to be a major ipo that i want  
you guys in addition to putting dry  
powder aside for things that we need to  
be taking advantage of in the stock  
market  
we need to also just like we did for the  
airbnb ipo  
just like we did for the palantir ipo we  
need to be  
again expecting i don't care if they  
come out in march  
or at the end of december we need to be  
prepared for that because that will be  
one that we jump in as a family okay so

be prepared we always have to be looking  
ahead these things right now this is  
just short term in nature  
it's temporary volatility we will all  
bounce back from  
trust me i've been doing this a lot  
longer than most people i know how these  
things will  
pan out in the end matter of fact this  
is where we make the most money at  
which is why i'm not too down about any  
of this it's just  
again letting it run its course so that  
we can get back on our a game  
but listen guys coinbase is what i want  
you guys to be focused on  
in terms of what's next for what we are  
going to be pursuing  
guys you know the whole block 5  
partnership that i have  
and getting you guys to start getting  
your crypto game up you guys need to get  
your ethereum game up okay  
and so related to that the big dog is  
coinbase all of that is tied together  
okay so we are already on the front end  
a lot of this stuff i need to circle  
back i got so much stuff i need to talk  
to the family about  
but i'm extremely busy as of late so i  
got  
so many topics so many things that i  
need to just  
unpack so that we can be as prepared as  
possible for things to come  
matter of fact it's all good things so  
i'm excited but  
nevertheless we have to get through this  
volatile week  
in preparation to picking up our  
bearings and getting back on our a game  
for next week guys so listen i won't  
belabor the point today  
it's late but i wanted to again  
i always show up for myself but more  
importantly i'll show it for you guys  
and i wanted to get on here  
and make sure that i at least got a word  
in for you all  
before the night ended but listen guys  
i won't belabor the point you already  
know we're gonna get to it  
let's finish the week strong okay you  
have an opportunity to pivot in some of

your plays you have an opportunity to  
get some plays that you always been  
eyeing at a lower price  
please take advantage of this you guys  
are the best in terms of just having the  
right mindset i  
give a lot of credit to you are just the  
maturation and the growth of how you  
guys have been  
growing over time as you have stayed  
involved and in contact with the channel  
so i'm not worried about anything i'm  
not worried about any of you  
however i want to encourage you guys to  
let's get ready to take advantage of  
this man i saw  
some marvelous plays i saw z-o-m  
come down to a price i like i saw a  
tattoo chef come down to a price i like  
got so many plays to name i can't even  
go through them i even saw some new  
plays we might consider  
that i'm gonna put on your radar  
momentarily so again be  
on the lookout guys cause we're gonna  
pounce all over this we don't panic we  
pumps you guys already know that  
however i want to make sure that you  
guys are understanding  
these are opportunities when it's blood  
in the streets it's time to eat and this  
been blood  
shed it's been bloody murder and i want  
us to  
again have the right lens that we  
looking at this through  
listen guys like i said i just had to  
come on here  
drop a quick word on you all i'll be in  
touch  
let's get ready to dominate tomorrow in  
terms of making plays  
pivoting and being strategic with our  
investments  
good night  
you
